**Note:** Project Proposals will not be considered by the Georgia Land Conservation Council for immediate grant funding, but will be reviewed by GLCP staff in order to determine eligibility for future funding and for possible referrals to other funding sources. GLCP funds will not be approved until a full and complete application is received, the property is visited and scored, an agreement has been reached with the landowner and the applicant submits a qualifying appraisal.

For conservation easements, terms must be negotiated with the landowner prior to conducting an appraisal and approved by GLCP staff. State agencies must also obtain approval from the State Properties Commission and execute the easement before receiving a reimbursement grant through GLCP.
