

# Non-Point Source Water Pollution Remediation Financing Programs

**GEORGIA LAND CONSERVATION PROGRAM  
APPROVED PROJECTS  
2005 - 2014**

The Georgia Land Conservation Program (GLCP) maintains a partnership with the Georgia Environmental Protection Division and the Department of Natural Resources to provide financing for projects that protect Georgia's land and water resources. Grants, low-interest loans and tax credits are available to government entities, non-government organizations and private landowners for projects that both permanently protect conservation lands and improve surface water quality.

Thirteen non-point source projects throughout the state have been awarded more than \$11 million by the GLCP. Funding may be used to pay land acquisition, due diligence and construction costs for waterway stabilization, stream buffer preservation, and other water quality improvement projects. The table on back side of this handout lists contact information for state sources of financing for non-point source remediation projects.

GLCP has helped protect more than 334,632 acres in 121 counties since 2005.

## Funding Sources for Non-Point Water Pollution Remediation Projects

	<b>Georgia Environmental Protection Division 319(h) Grants</b>	<b>GEFA Land Conservation Loans</b>	<b>GEFA Non-Point Source Loans</b>	<b>Department of Natural Resources State Tax Credits</b>
<b>Funding Type</b>	Grant	Loan	Loan	State income tax credit
<b>Match Requirements</b>	At least 40 percent non-federal grant funds	Monthly loan payments	Monthly loan payments	At least 75 percent of donation value
<b>Funding Maximum</b>	\$400,000 federal grant funds	\$25 million	\$25 million	Less than 25 percent of the donation, \$250,000 for individuals or \$500,000 for corporations or LLCs
<b>Project Requirements</b>	Consistent with Georgia's Non-Point Source Management Plan as determined by EPD review and approval	Consistent with Georgia's Non-Point Source Management Plan as determined by GEFA board of directors and GLCP land council review and approval	Consistent with Georgia's Non-Point Source Management Plan underwriting approval by GEFA board of directors	Permanent protection of eligible conservation land; approval by DNR board of directors and approved appraisals by the State Properties Commission
